PROFILE

With 04 years of industry experience, I am a great team player. I am passionate about team collaboration and learning newer stuffs. I have keen interest in software engineering best practices and system design. I actively contribute to the tech community by knowledge sharing.

SKILLS

PROFESSIONAL EXPERIENCE

Software Engineer

Potential

12/2025 – Present
Seoul, South Korea

- Led backend team, driving API design and development using NestJS
- Contributed to frontend development using React, ensuring end-to-end feature delivery

Software Engineer

Bit Byte Technology

03/2023 – 11/2025
Dhaka, Bangladesh

- Maintained a SaaS platform handling 10M+ requests per month, ensuring high availability and performance.
- Reduced AWS S3 costs by implementing a custom CDN system, optimizing storage and delivery expenses.
- Lead the backend development at Australia Govt Project Acceler8. I also developed the e-commerce SASS product Bit Commerce.

Junior Software Engineer

Decode lab

01/2022 – 02/2023
Dhaka, Bangladesh

- By ingeniously optimizing the admin panel for best practice project, I've dramatically cut down the loading time from 50 seconds to 10 seconds.
- Solved complex MERN frontend challenges, mentored teammates, and ensured on-time delivery.

PROJECTS

Bit Commerce (SAAS)

07/2023 – present

Project Scope:

- Developed with **Tailwind, ReactJS, NextJS, MySQL, TypeORM, MongoDB, and NestJS.**
- BitCommerce is a sass e-commerce product of bit-byte technology. Where a shop owner can register and set up his shop and start an online.
- In this project, I built backend api also integrating 3rd party APIs, setting up international and local payment gateways, and building an admin panel.

EDUCATION

BSc. in CSE

Dhaka International University

12/2021 – 08/2025
